GENERAL REVIEW

Hon. WILLIAM S. JACKSON, President of the Board of Trade of the City of Chicago:

SIR:—Herewith you will please find report of the Board of Trade of the City of Chicago for the year ended December 31, 1905.

The year 1905 closes with a record of general prosperity in all departments of business throughout the states. The crops of 1904 were abundant and poured into the lap of the nation an immense wealth. The official estimate of the value of the products of the farm for that year was \$4,900,000,000. This tremendous amount furnished employment to countless hands, a steady and strong demand for merchandise of every sort, funds for moneyed institutions, incentives to enterprise on every hand, and that which is of supreme importance—confidence that all business obligations would be promptly discharged. That confidence was strengthened by a well grounded impression that in spite of a widespread prosperity and ample funds, business was conducted on the whole with caution.

A series of remarkably prosperous years has not debauched the public mercantile mind. This general feeling of steadiness and confidence in financial and industrial circles was not only undisturbed as the months of the year passed, but the situation became stronger, as indications pointed to the crops of 1905 as unprecedented in value. Even then, strange to say, there appeared no disposition to abandon the safe path in monetary and commercial affairs.

CHICAGO IN THE LEAD.

Chicago has maintained its ascendency among the great food markets of the world. Her receipts of wheat, corn, oats, rye, barley and flour in its wheat equivalent, aggregate 296,-

428,100 bushels, which is an increase of 31,000,000 bushels over corresponding receipts during the year 1904; her shipments of these articles during the year aggregate 212,862,238 bushels, varying slightly from the corresponding figures for 1904. Thus it may be seen that Chicago handled during the year about 509,000,000 bushels of grain, counting flour in its wheat equivalent.

The number of hogs received during the year is 8,319,690, of cattle 3,410,469, and of sheep 4,736,558, showing an increase in the number of hogs of 533,149, of cattle 151,284, and of sheep 231,938 over like receipts during the year 1904. The number of hogs shipped during the year is, in round numbers, 2,000,000, of cattle 1,400,000, and of sheep 1,356,000, showing an increase in the number of hogs shipped of 400,000, of cattle 84,000, and a decrease in the number of sheep of 6,400.

GREAT MEAT MARKET.

Our receipts of meats, cured and "other meats," aggregate 634,785,888 pounds, as against 408,426,000 pounds received during the year 1904; of lard 84,653,195 pounds, as against 54,549,592 pounds received during the year 1904; of cheese 85,972,114 pounds, as against 91,000,000 pounds received during the year 1904; and of butter 271,914,803 pounds, as against 249,024,146 pounds received during 1904.

Our shipments of cured and "other meats" aggregate about 1,865,314,566 pounds, and of lard 405,629,825 pounds, showing an increase of 141,593,660 pounds of cured and other meats, and 68,839,862 of lard over the corresponding shipments of 1904.

Our receipts of hay aggregate, in round numbers, 245,600 tons, which are nearly the same as the receipts of 1904. The local demand absorbs nearly our entire supply, our shipments being only about 12,000 tons. This trade throughout the year was very satisfactory, both with regard to prices and quality.

PREGNANT WITH MEANING.

What this enormous volume of business means in all its ramifications, to railroads and steamship lines, to warehouses, to banks, to insurance offices, to the laborer, to employes in various industries, one can scarcely comprehend. Indeed, the marketing of the farm products of the great Valley of the Mississippi sets in profitable and harmonious motion, directly and indirectly, the wheels of industry and commerce from one end of the country to the other; it supplies to a very large extent our banks with funds, the people with employment, and indirectly, though not the less emphatically, our factories and shops with customers for their fabrics; it sustains countless industries and enterprises all along the wonderful pathway of commerce from prairie to port; it supplies vessels on the high seas and the great lakes with millions of tonnage.

Our 214,000 miles of railways are in largest measure supported by the carriage of the agricultural products of the great Valley of the Mississippi for distribution to eastern and southern markets both for domestic consumption and for export, and in turn by the transportation of an almost endless variety of manufactures demanded by a wonderful and pervading agricultural prosperity.

WEALTH OF FARM PRODUCTS.

The agricultural products of the United States constitute the lifeblood of our inland commerce and the chief factor in our foreign trade; they lie at the very basis of our commercial and industrial life. The rewards of the agriculturist, both pecuniary and economic, are the legitimate and logical result of an enterprising and intelligent industry pursued upon a generous soil, under the inspiration of a government created and administered by the people. Through the facilities furnished by the Chicago Board of Trade and kindred organizations, ready money-independent of existing market conditions, such as an immediate consumptive demand—is furnished to farmers and country dealers, enabling them to meet promptly their varied obligations incident to constantly recurring and increasing wants. money circulates without interruption through the arteries of our far-reaching commercial and industrial life and sustains in a large degree our wholesale trade in all departments of business.

NATION'S GREAT ASSET.

The tangible assets of the United States are not in Wall street or in the hands of money-holders anywhere; they are found in our agricultural resources made available for the com-

mon welfare by skilled labor and by an ambitious and publicspirited citizenship. This is, to be sure, a truism of political economy, but nevertheless, in view of recent startling and demoralizing revelations in the realms of finance, there is need of placing upon this fact special emphasis, and of giving deserved prominence to those great commercial organizations whose primary and supreme function it is to market the agricultural products of the country; to bring buyer and seller together on an equitable basis; to obtain and disseminate valuable economic information concerning the grain markets of the world, not in the interest of the seller or of the buyer exclusively, but in order to arrive at a fair price upon the basis of the world's food supply and the world's food needs. All this information is given by these associations to the public without charge. No agencies exert a more beneficent influence upon the general commercial and industrial welfare than do the grain, produce and provision exchanges of the United States. No other department of business is subject to so searching and so severe a scrutiny as the business conducted under the rules of these organizations; no business is more vitally allied to the various industries and commerce of our city and of the country. These institutions represent wealth producers and not wealth manipulators.

POWERS THAT ARE INVOKED.

Point me to any institution or department of business that more zealously and honorably promotes the common commercial and industrial welfare. Boards of trade marshal the forces of individual capacity, the resources of the field and of the mine; they call forth for the common good the latent forces of mind and of matter, and are constantly creating facilities for the saving of time, for reducing expenses in the distribution of merchandise and minimizing risks of business transactions; they study and solve the problems which a keen and educated competition presents; they take a wide outlook in carrying out their purposes, keeping in view not alone one market, one state or one country, but planning and legislating for a world-wide commerce.

Nature in the year 1905 extended to the husbandman a prodigal hospitality. The estimates of the Secretary of Agriculture of the value and volume of the crops are as follows:

	BUSHELS.	VALUE.
Corn	2,708,000,000	\$1,210,000,000
Wheat	684,000,000	525,000,000
Oats		
Potatoes	260,850,300	
Barley	133,000,000	58,000,000
Hay		

HUGE FARM VALUES.

Secretary Wilson reports that the total value of farm products for the last year was \$6,415,000,000, and that "every sunset during the last five years has registered an increase of \$3,400,000 in the value of the farms of this country, and every month has piled this value upon value until it has reached \$102,000,000,000. That portion of the national debt bearing interest is equaled by the increased value of farms in nine months, and the increase for a little over a year balances the entire interest and non-interest bearing debt of the United States." Farm crops have never before been harvested at such a high general level of production and value.

The industries of the United States utilizing agricultural products as materials employ 37 per cent of all the persons engaged in manufacturing, and the capital of these industries is 42.1 of the capital of all manufacturing establishments.

VALUES ON THE FARM.

The following table shows the average farm prices of the articles named on December 1 for the past six years, as reported by the Department of Agriculture:

RANGE OF PRICES.

The following is a statement showing the highest and lowest cash prices in the Chicago market of the articles mentioned, and the months in which they occurred, for the twelve months ended December 31, 1905, with the corresponding figures for the year 1904:

Some instances of bankruptcy have occurred as the results either of an indisposition or an inability to conform to modern business methods. With the exception of some startling revelations concerning men occupying positions of trust, the year has not disclosed any marked unfavorable features.

NOTABLE DECISION RENDERED.

Thanks to the efforts of our attorney, Henry S. Robbins, the Supreme Court of the United States rendered a decision upholding the legality of our future or time trading, our clearing house, our system of settlement by offset, and sustaining the Board of Trade's property right in its quotations and enjoining their use in bucketshops. This important decision is the result of litigation comprising thirteen suits brought by bucketshops against the Board and twenty-six suits brought by the Board against purloiners of our quotations.

In 1902 a large number of injunction suits were brought against the President of the Board and others to enjoin the signing down of margins. The Supreme Court of the State of Illinois last October upheld in the broadest terms the validity of our margin rule and ordered that the injunction suits be dissolved. Thus was brought to naught the persistent and protracted attempt to set aside the rule of the Board providing for the indorsing of margin certificates in case of dispute.

In litigation covering a period of six years the Board has never lost a case in a court of last resort.

With crops unprecedented in volume and in value, with a widespread distribution of surplus earnings, with a prevailing

conservatism in business affairs, with the ban of the law on bucketshop trading, we cross the threshold of the new year with gratifying prospects.

The following is a statement of the wheat crop of the countries named from 1901 to 1905, inclusive, furnished by the United States Department of Agriculture:

*FOREIGN CROP REPORT.

The world's wheat crop of 1905 is estimated by the Hungarian Ministry of Agriculture at 3,189,000,000 bushels of 60 pounds, against 3,182,000,000 such bushels last year.

The Hungarian estimate for rye is 1,539,000,000 bushels of 56 pounds, against 1,815,000,000 such bushels last year. The decrease, which exceeds 15 per cent, is attributed chiefly to the large deficiency in the Russian crop of this grain. important as is the place that rye occupies among the cereals cultivated in the United States, it is by no means unimportant as a part of the world's bread supply; nor is it without effect on the price obtainable for the exportable wheat surplus of the United States, as was pointed out in an article entitled "Influence of rye on the price of wheat," published in the Year Book of the Department of Agriculture for 1900. If the wheat and rye crops of the world, as estimated by the Hungarian Ministry of Agriculture, be taken together and expressed in centals of 100 pounds, this year's estimate for the two great bread grains combined will be found to be about 51/8 per cent below the estimate for last year. The following are the Hungarian estimates for the world's crops of the five chief cereals for this year and last, expressed in millions of bushels:

HUNGARIAN ESTIMATE OF THE WORLD'S GRAIN CROPS.

	CROPS	;.		1905.	1904.
Wheat	_	-	, -	3, 189.4	3,182.0
Rye			-	1,539.3	1,814.9
Oats	-	-	-	3,451.6	3,768.5
Barley		-		1,313.6	1,382.5
Corn	-	-	-	3,507.7	3,314.8

The figures on the wheat and rye crops have already been discussed. Those on oats and barley make this year's crops smaller than those of 1904, the decrease being 8.4 per cent for the former and nearly 5 per cent for the latter cereal. The corn crop, owing to the fine condition of that grain in the United States, is estimated to be 5.8 per cent larger than last year's.

^{*}Extract from "Crop Reporter." (United States Department of Agriculture, Washington, D. C.)

Taking the five crops together, the aggregate production this year, according to the foregoing figures of the Hungarian Ministry of Agriculture, is nearly 2.7 per cent less than that of 1904.

CHICAGO.

The population of Chicago is estimated at 2,019,998. The average population per acre is 16.08. Her area, 125,188 acres, or 190.7 square miles; her park area 3,180 acres. Number of miles of streets 2,816. The number of buildings erected during the year is 8,442, valued at \$63,979,950.

There are 3,046 men employed on her police force and 1,373 men in her fire department.

The death rate per 1,000 of the population of this city for the year was 13.67; of Buffalo 14.14; of Cleveland 14.60; of St. Louis 15.09; of San Francisco 15.35; of Cincinnati 17.20; of Philadelphia 17.25; of New York 18.31; of Boston 18.49; of Baltimore 19.44; of Pittsburg 19.60. The London death rate is 19.88; that of Paris 20.21; Berlin 18.70, and St. Petersburg 25.02.

The number of arrivals at the port of Chicago of all kinds of crafts during the year 1905 was 7,236, and the number of clearances 7,268. The tonnage entered and cleared during the year aggregated 14,740,155 tons. On page 128 may be seen a comprehensive and comparative statement of the tonnage in the foreign trade in the principal ports of the world.

Chicago's grain receipts, and of flour in its wheat equivalent, aggregated for the year 296,428,101 bushels, as against 265,500,000 bushels received during 1904, showing an increase over those of last year of 31,000,000 bushels, made up chiefly in the receipts of oats and corn.

Our shipments for the year aggregated 212,862,239 bushels, as against 180,578,736 bushels shipped during the year preceding, showing as increase over those of last year of 32,343,503 bushels.

The number of bushels of corn received during the year was 110,823,444, as against 100,543,207 received during the year 1904; and the number of bushels shipped 91,153,342, as against 75,184,758 shipped during the year 1904.

Of the quantity of corn forwarded from Chicago during the year, 49,772,146 bushels were shipped via the Great Lakes, as against 41,798,051 so shipped during 1904.

Our receipts of wheat during the year aggregated 26,899,012 bushels, as against 24,457,347 bushels received during 1904, and 27,124,585 bushels received during 1903; and our shipments for the year aggregated 13,922,714, as against 17,957,416 bushels shipped during 1904, and 24,367,548 during 1903. Of the quantity forwarded from Chicago during the year 5,069,982 bushels were shipped via the lakes, as against 5,627,386 bushels so shipped during 1904; nearly all of these shipments went to Buffalo and thence via canal or rail for domestic and foreign consumption.

Our receipts of oats during the year aggregated 92,486,761 bushels, as against 73,023,119 bushels received during the year 1904, and 88,588,386 bushels received during the year 1903. The shipments of oats during the year aggregated 66,131,725 bushels, as against 47,303,901 bushels shipped during 1904, and 63,539,179 bushels during 1903. The year during which the largest quantity of oats was shipped from this port was that of 1897, when 104,666,956 bushels were shipped.

The receipts of barley during the year aggregated 28,074,142 bushels, as against 25,316,917 bushels received during 1904, and 23,273,519 bushels received during 1903; the shipments aggregated 7,374,037 bushels, as against 5,802,856 bushels shipped during 1904, and 2,986,816 during 1903. This trade is gaining in volume and importance and is destined to attain still larger proportions.

The number of cars of all kinds of grain inspected in Chicago during the year was 197,297, and the number of bushels of grain inspected, received in bulk by water, was 700,259, as against 164,868 cars, and 1,013,825 bushels, respectively, during the preceding year.

The number of bushels of grain weighed by the Weighing Department during the year was approximately 450,000,000—370,000,000 of which was forwarded by cars and the remainder by lake. Total number of cars of grain weighed, 321,615.

The receipts of flaxseed during the year aggregated 2,890,241 bushels, and the shipments 238,652 bushels, as against 3,337,313

bushels received, and 676,271 bushels shipped during 1904. This trade seems to be gradually diminishing owing to a variety of causes, chief among which is the fact that its cultivation is every year growing less in the regions tributary to this market. Its growth is exhausting to the soil, and as a consequence it is mainly raised on new and virgin lands. A detailed statement may be found of monthly receipts and shipments for the year on page 90 of this report.

The receipts of grass seeds during the year, comprising timothy, clover, millet, Hungarian, etc., aggregated 78,589,943 pounds, as against 88,722,897 pounds received during the year preceding; 78,381,648 pounds received during the year 1903, and 71,093,567 pounds received during 1902. The shipments of such seeds during the year aggregated 54,210,439 pounds, as against 71,196,146 pounds shipped during the preceding year, and 76,304,807 pounds shipped during 1903. Of the quantity shipped during the year 39,340,166 pounds were shipped via eastern railway lines and 5,770,238 pounds via the Great Lakes, the balance went out by western roads. This trade is confined to a limited number of prominent seed concerns.

The receipts of lard in Chicago during the year aggregated 84,653,195 pounds, as against 54,549,592 pounds during 1904, and 35,993,461 pounds during the year 1903. The shipments during the year aggregated 405,629,825 pounds, as against 336,789,963 pounds during 1904, 371,000,959 pounds during the year 1903, and 382,498,069 pounds during 1902. Of this year's shipments, 356,468,730 pounds went by eastern railway lines, and 1,269,200 pounds by lake. Railway lines were much preferred for shipping this article for many and manifest reasons. A considerable quantity is shipped to gulf ports for export. American, and especially Chicago lard, meets with great favor in the continental markets, and shipments are made with great uniformity throughout the year.

The receipts of dressed beef during the year aggregated 360,773,876 pounds, as against 208,204,901 pounds received during the year 1904, 199,537,879 pounds received during 1903, and 135,372,268 pounds received during 1902. The shipments aggregated 1,110,371,601 pounds, as against 1,072,156,300 pounds shipped during the year 1904, and 1,252,233,792 pounds

during 1903. The trade in this article for both home and foreign consumption is enormous, and far in excess of that in any other market, at home or abroad. On page 42 may be seen a statement of receipts and shipments by months of dressed meats, also a statement showing the railway lines over which received as well as those over which shipped.

Of meats, other than barreled pork, the receipts during the year aggregated 274,012,012 pounds, as against 200,221,000 pounds received during 1904, and shipments 754,942,965 pounds, as against 652,564,606 pounds shipped during 1904, 580,282,643 pounds during 1903, and 660,680, 190 pounds shipped during 1902.

The receipts of lumber during the year aggregated 2,193,-540,000 feet, and shipments 956,377,000 feet, as against 1,670,272,000 feet received, and 821,008,000 feet shipped during 1904, and 1,711,348,000 feet received and 803,846,000 feet shipped during 1903. The number of shingles received during the year was 583,334,000 and the number shipped 421,235,000, as against 450,524,000 received, and 434,-195,000 shipped during 1904. On pages 98, 104 and 105 may be found complete statements showing the volume of this trade. Chicago is the greatest lumber market in the world.

The receipts of cheese during the year aggregated 85,972,114 pounds, and shipments 69,394,718 pounds, as against 90,937,788 pounds received and 66,148,937 pounds shipped during the year 1904, and 82,129,832 pounds received and 57,277,361 pounds shipped during 1903. On page 100 may be found a detailed statement showing receipts and shipments during the year.

The receipts of butter during the year aggregated 271,914,803 pounds and shipments 254,130,889 pounds, as against 249,024,146 pounds received and 249,359,694 pounds shipped during 1904, and 232,032,484 pounds received and 197,620,859 pounds shipped during the year 1903. On page 100 may be seen a statement showing monthly receipts and shipments, and also showing the routes over which received and shipped.

The number of hogs received in Chicago during the year aggregated 8,319,690, including the number received by the Omaha Packing Company, whose yards are located outside the

Union Stock Yards. The number of hogs shipped during the year was 2,028,106. The number used for city consumption was 6,290,432. On page 40 may be found a comprehensive statement of receipts and shipments of hogs during the year, showing monthly receipts and shipments, and also showing the lines of railway over which received and shipped.

The number of sheep arrived in this market during the year was 4,736,558 head, and the number shipped 1,355,865 head, as against 4,504,630 head received and 1,362,270 head shipped during the preceding year, and 4,582,760 head received and 1,000,109 head shipped during the year 1903. The number of sheep used for city consumption and packing during the year, was 3,380,693. A complete statement showing receipts and shipments for the year may be found on page 41.

The number of horses received in Chicago during the year was 127,250, and the number shipped 108,633, as against 105,949 received and 98,032 shipped during the year preceding.

The number of calves received in this market during the year was 380,835, and the number shipped 26,827, as against 267,499 received and 23,418 shipped during the preceding year.

The receipts of cattle during the year aggregated 3,410,469 head and shipments 1,410,213 head, as against 3,259,185 head received and 1,326,332 head shipped during the preceding year. A full statement showing monthly receipts and shipments, and also showing routes over which brought in and shipped out may be found on page 41.

The total receipts of animals in this market comprising cattle, calves, hogs, sheep and horses, during the year aggregated 16,380,850 head, as against 15,376,009 head received during 1904, and 15,715,515 head received during 1903. The total shipments for the year aggregated 4,929,644 head, as against 4,436,072 head shipped during 1904, and 3,628,130 head shipped during the year 1903. I refer you to pages 40 and 41 for a statement of receipts and shipments of live stock for the year.

The value of live stock received in this market during the year amounted to \$300,472,280; the valuation of horses, \$18,133,125; of sheep, \$23,188,293; of hogs, \$91,343,975; of cattle, \$163,941,612. The live stock received in this market during the year was brought in 302,766 cars.

The volume of our business in live stock is simply astounding, and no adequate impression can be conveyed of its importance and magnitude by a mere recital of abstract statistical statements. Visit the great Union Stock Yards, look over its 500 acres, 450 of which are covered with brick or plank. Consider that there are 300 miles of railway track within the yards, 25 miles of streets, 13,000 pens, 25,000 gates, and you gain some idea of the immensity of this business reaching out into all the markets of the world.

Following is the record of the clearings of the local banks by months during the year, as compared with those of the corresponding months in 1904:

FOREIGN TRADE.

The excess of our exports over our imports during the year was, in value, \$401,048,595.

The foreign commerce of the United States in merchandise during the year ended June 30, 1905, quoting from the Chief of the Bureau of Statistics of the Department of Commerce and Labor, exceeded both in imports and exports that of any earlier year.

The falling off in the exports of agricultural products and especially wheat and wheat flour, continues to be a marked characteristic of the export trade.

The percentage which agricultural products formed of the total domestic exports, was in 1905, but 55.03 per cent, against 69.73 per cent in 1895, 72.96 per cent in 1885 and 76.95 per cent in 1875.

Comparing 1905 with 1895, the exports of manufactures shows an increase of practically 200 per cent, and those of mines, forests and fisheries, an increase of more than 100 per cent each, while those of agriculture have increased only 50 per cent in the same period.

The reductions of exports of wheat and flour cannot be charged to low prices, since the average price per bushel of wheat exports in 1905 was higher than in any year since 1898, and the average price per barrel of flour exported was higher than in any year since 1892.

The value of our exports amounted to \$1,518,561,666, which exceeded by 57,734,395 the value of our exports during the preceding year. The value of our imports and exports for the year amounted to \$2,636,074.737. The total value of all agricultural products during the last fiscal year was \$820,863,405, as against \$853,643,073 exported during the year immediately preceding. The steady decline in the percentage which agricultural products form of the total exports is due, says the Secretary of Agriculture, to the increase in the exports of other products, especially manufactures, rather than to any material decrease in the products of agriculture as a whole.

The value of our imports of merchandise during the year amounted to \$1,117,513,071.

Our exports of wheat for the fiscal year ended June 30, 1905, aggregated 4,394,402 bushels valued at \$3,905,579, as against 44,230,169 bushels valued at \$35,850,318, exported during the year immediately preceding, and 114,181,420 bushels, valued at \$87,795,104, exported during the year 1903.

Our exports of corn aggregated 88,807,223 bushels, valued at \$47,446,921, as against 55,858,965 bushels, valued at \$30,071,334, exported during the year immediately preceding, and 74,833,237 bushels, valued at \$40,540,637, exported during the year 1903.

The exports of oats aggregated 5,479,308 bushels, valued at \$2,085,992, as against 1,153,714 bushels, valued at \$475,362, exported during the year 1904, and 4,613,809 bushels, valued at \$1,850,728, exported during the year 1903.

The exports of flour aggregated 8,826,335 barrels, valued at \$40,176,136, as against 16,999,432 barrels, valued at \$68,894,836, exported during the year 1904, and 19,716,484 barrels, valued at \$73,756,404, exported during the year 1903.

We exported more flour to Japan than to any other country, viz: 1,381,599 barrels, valued at \$5,112,248.

Our exports of cotton, unmanufactured, aggregated 8,337,964 bales, or 4,304,848,903 pounds, valued at \$379,-965,014, as against 6,009,194 bales, or 3,063,192,760 pounds, valued at \$370,811,246, exported during 1904, and 6,938,279 bales, or 3,543,043,022 pounds, valued at \$316,180,429, exported during the year 1903.

The value of our exports of provisions, comprising meats and dairy products, during the last fiscal year was \$169,998,873.

The exports of lard aggregated 610,238,899 pounds, valued at \$47,243,181, as against 561,302,643 pounds, valued at \$46,347,520, exported during the year preceding. The United Kingdom and Germany are the two largest foreign buyers of this product.

Our exports of beef, salted or pickled, aggregated 55,934,-705 pounds, valued at \$3,095,304, as against 57,584,710 pounds, valued at \$3,260,475, exported during the year 1904, and 52,801,220 pounds, valued at \$3,814,671, during the year 1903.

The exports of bacon for the last fiscal year aggregated 262,246,635 pounds, valued at \$25,428,961, as against 249,-

665,941 pounds, valued at \$24,446,752, exported during the year preceding, and 207,336,000 pounds, valued at \$22,178,525, exported during 1903.

The exports of ham aggregated 203,458,724 pounds, valued at \$21,562,204, as against 194,948,864 pounds, valued at \$22,293,867, exported during the preceding fiscal year, and 214,183,365 pounds, valued at \$25,712,633, exported during 1903.

Included in this report is a copy of the rules, by-laws and regulations of the Board of Trade of the City of Chicago in force May 3, 1906; also a copy of the rules governing the inspection of grain in the City of Chicago established by the Railroad and Warehouse Commission of the State of Illinois, in force March 10, 1906.

To the President and Board of Directors of the Board of Trade of the City of Chicago.

GENTLEMEN:

In accordance with the instructions of the Finance Committee, we have completed a careful audit of the Financial Records of the Board of Trade of the City of Chicago, covering the period from January 9, 1905, to January 8, 1906.

All the records in the cash book, journal and ledger were proven correct. The cash balances as shown in the hands of your Secretary and Treasurer were checked and proven correct; also the Bonds of the Board amounting to \$30,200.

Vouchers, properly approved by the Finance and Real Estate Committees, were presented for all cash payments.

We also certify that the foregoing report is correct in accordance with the records audited.

Respectfully submitted,

EVERETT AUDIT CO.

At the close of the fiscal year ended on the 8th day of January, 1906, there were no bills outstanding. Cash on hand, as per financial statement hereinbefore submitted, exclusive of \$16,803.20 standing to the credit of the Board on the books of the telegraph companies, was \$170,221.86. In addition, the Board has \$30,200 of Board of Trade 4 per cent bonds standing at par value. This is merely an investment and not a cancellation of the bonds. At the close of the fiscal year the 9th of January, 1905, the amount of cash on hand, exclusive of the amount in the hands of telegraph companies, was \$150,499.18, or \$11,722.68 less than the amount brought down at the close of the fiscal year, January 8, 1906. At the close of the fiscal year ended on January 4, 1904, cash on hand amounted to \$47,-274.71; on the 5th day of January, 1903, \$19,411.82, on the 6th day of January, 1902, \$10,815.04.

The bonded indebtedness of the Board is \$1,240,000, due in the year 1927, bearing 4 per cent interest, payable on the first day of June and the first day of December of each year.

REAL ESTATE.

Disbursements on real estate account, exclusive of construction, interest and insurance, amouted to \$57,179.76, as against \$59,637.08 expended during the preceding fiscal year, and \$66,-047.43 during the year ended January 4, 1904.

The amount expended for construction during the year last past was \$13,966.12.

The total amount of expenditures, including construction, amounted to \$72,532.94.

Deducting the amount expended for construction, the expenditures, including insurance, amounted to \$58,566.82, as against \$60,902.62 for like expenditures during the year 1904.

Amount received from rentals, janitor service and electric lights, \$134,688.37, as against \$135,539.48 received during the preceding fiscal year, and \$133,319.09 received during the fiscal year ended January 4, 1904, and \$129,253.59 received during the fiscal year ended January 5, 1903.

Under the city ordinance limiting the Board to 100 pounds pressure for steam boilers, it was necessary to rebuild one of our old engines and to purchase a new one.

We have installed one new passenger elevator and have three others nearly completed.

The basement of the building heretofore bringing no revenue to the Board has been made available by renting a large space for a restaurant at a good rental. The alterations necessary for its use as which was paid by the Lakota Catering Co.

The pro rata amount assessed by the Board of Directors to meet the ordinary expenditures of the Association for the ensuing year is \$50.

The membership of the Board on the 9th day of January, 1906, numbered 1,774.

The number of memberships transferred during the year was 162, yielding \$4,050.

There were five memberships retired during the year, and on account of same was paid \$14,900.

The following members were expelled from the Board: Earl H. Prince, Amos G. McCampbell, E. A. Rang, Abraham Lazerus and Harry F. Maydwell.

The clearances of the Clearing House of the Board of Trade of the City of Chicago during the fiscal year last passed amounted to \$56,749,345.50 and balances \$19,369,168.01, as against \$99,-101,957.50 and \$31,999,278.69, respectively, during the fiscal year ended January 9, 1905.

GRAIN SAMPLING AND SEED INSPECTION DEPARTMENT.

The Grain Sampling and Seed Inspection Department has more than justified its establishment. It has received the endorsement and commendation not only of the members of the Board, but also of grain dealers generally, both east and west. One of the most important features of this department is its cooperation with the State Grain Inspection Department, with the object of securing a greater uniformity in the inspection of grain, and of conferring, as it might seem desirable, with the Chief Inspector of Grain in view of correcting any inaccuracies or irregularities in the inspection of grain that may be brought to the attention of the department. The State Grain Inspection Department has acted in harmony with the Board, and as a consequence, the inspection of grain in this market is more uniform and reliable than before.

During the year the department has sampled 78,097 cars of grain and 19,693,590 bushels for lake shipment.

WEIGHING DEPARTMENT.

The Weighing Department has maintained its reputation for efficiency and reliability. It still stands at the head of the grain weighing departments of the United States. Our Weighmaster, Mr. H. A. Foss, has frequently been called upon to inaugurate his system of weighing in other markets. The high standing of the department is owing to the fidelity and accuracy with which its entire work, even to the minutest detail, is performed. certificates of the department are relied upon without question in both domestic and foreign markets. Its reputation, therefore, is not only national but international. The number of cars weighed during the year was 321,615; the number of bushels weighed to and from vessels was 79,966,331; the number of bags of seed weighed was 33,748. The department is now weighing at all Chicago elevators. The total quantity of grain weighed by the department was 450,000,000 bushels, of which 370,000,000 were transported by cars and the balance by lake This shows a net increase of 14,910,770 bushels in craft. vessel trade for the year, and a net increase of 41,025 in the number of cars weighed.

TRANSPORTATION DEPARTMENT.

The report of the Transportation Department abundantly justifies its organization and continuance.

Its results for the year may be summarized as follows:

The first result accomplished was the restoration of Chicago as a basing point. On the 6th of February, 1905, the so-called Mississippi River prorate to seaboard territory was abolished and all grain rates were made on Chicago. This not only did away with the necessity of tying up funds in excess of freight charges, amounting in some individual cases from \$50,000 to \$80,000 at a time and which was a burden on the trade generally, but it also removed the cause of other evils which were the outgrowth of the former basis of adjustment.

Rates from Minneapolis and the Northwest, which were formerly 1c to 4½c per 100 lbs. against Chicago, were equitably adjusted by change in the rate schedule to both Chicago and

Minneapolis, also to Duluth and Gladstone, likewise rates out of Minneapolis.

This was accomplished, with the co-operation of the Minneapolis Chamber of Commerce, after a period of negotiation with interested railways lasting some months, and effective July 17, 1905, an adjustment was agreed to that placed this market on an equality in the Northwest. There is now no discrimination against the Chicago gateway from this territory on through business from the country direct or from and via Minneapolis, all rail. There has also been accorded us transit privileges from Minneapolis.

ILLINOIS MATTERS.

A number of changes in rates and methods have been obtained from the railways, some of which while possibly of minor importance, yet in the aggregate are of value to the trade.

The Chicago & Eastern Illinois Railroad formerly charged a penalty of one cent per 100 lbs. in its through tariffs to the East on grain routed via Chicago. This premium was removed in May last, placing Chicago on a parity with interior junctions. The one cent per 100 lbs. in excess of the local rate charged by this road on all grain going into transit account, making an additional and unnecessary investment until the grain could be cleared, was removed January 2, 1906.

Through export rates from Illinois Central and Chicago & Alton, in lieu of applying the domestic basis on export grain, were reinstated.

The application of all-rail earnings instead of full local rates up to Chicago on grain cleared by lake, and the removal of the penalty charge from Chicago & Alton stations on grain for transit, were changes for the better granted by the roads named.

RECONSIGNING CHARGE.

All receivers are familiar with this charge which, one road at a time, is being gradually eliminated. Some of the lines have voluntarily canceled it within the last two or three years, and within the past four months we have induced four other roads to abolish the practice, leaving only two lines at this writing who are assessing the tax.

RATES TO SOUTHEASTERN TERRITORY.

At present, through a peculiar view taken by southern lines, this market is prohibited, unless at a penalty of from 4½ to 6 cents per 100 lbs., from competing with our neighbors in handling Iowa, Wisconsin, Minnesota and Dakotas grain in the southeastern market; in fact, this embargo also obtains on Illinois grain moving through Chicago.

The justification for this discrimination, malicious in character if not in intent, so far has not been made clear. Efforts to remove the discrimination, which from expressions of opinion and in some cases of intentions by certain railway interests involved, have not been in vain and point to a satisfactory solution placing Chicago in position to compete in its own natural territory.

Changes in the south preliminary to those necessary north of the Ohio River have been made, furnishing a base from which we can work.

SUMMARY.

In our efforts with the railways to remove these irregularities, in some cases necessitating an almost complete change of rate schedules, we have aimed to make our work constructive rather than destructive; to accomplish the greatest good with the least sacrifice, having in mind the rights of competing sections and the obligations of carriers thereto.

We have been met in a broad spirit by the transportation companies in the discussion of the matters brought before them. Results have been obtained by mutual concessions and not by drastic means. While opinions differ, as they have and always will, as to the most effective methods, we have seen no differences strong enough to discourage in the work before us.

All of these questions and more yet unsolved are but parts of the main idea in view—to make Chicago a basing point in fact instead of in theory.

Many other matters have been handled by the department, but only those of leading interest have been presented.

LEGAL DEPARTMENT.

The present year closes an unusually active and important period in our legal affairs. Despite the failure of prior similar efforts, this Board, about six years ago, at the suggestion of its attorney, embarked upon a new plan to deprive the bucketshops of our quotations. This consisted in establishing in law a property right in our quotations and securing the protection thereof from purloiners through writs of injunction. It also contemplated making the quotations a source of substantial revenue.

At that time the Western Union and Postal Telegraph Companies were, under licenses from this Board and without charge, collecting the quotations upon our exchange floor, and there were then outstanding four injunctions, which in effect restrained the Board from ousting them. As soon as our plan was disclosed, three more like injunctions were added. By July 1, 1900, we had succeeded in dissolving these, and in dispossessing the telegraph companies, and were, through our own employes. collecting the quotations. Contracts denying the quotations to bucketshops were then demanded by the Board from the telegraph companies. The two larger telegraph companies refused to sign such a contract, and on August I, 1900, ceased to distribute the quotation. Finding, however, that this Board was in earnest, they finally did so, and on April 15, 1901, resumed the distribution of our quotations, and thereafter gave them only to such applicants as this Board, after investigation, found not to be bucketshops.

The bucketshops, not being able to obtain them from the telegraph companies, then began stealing the quotations, and thereby an illicit trade therein arose.

To stop this the Board commenced numerous suits in the Federal Courts of the Central West. In defense of these suits the bucketshops not only denied the existence of any property right in the quotations and the right of the courts to protect it by injunction, but attacked the legality of our transactions, out of which the quotations arose. This gave rise, especially upon the last question, to a marked conflict of decisions by the different Federal Courts.

Thereupon the United States Supreme Court ordered two of these cases before it for review. Its decision last May was a sweeping and far-reaching one in our favor. It established not only the legality of our future or time-trading, our clearing house, and our system of settlement by off-set or "ringing," but also

decided that our quotations were a species of property which should be protected by injunctions. It also affirmed the legality of our contracts with the telegraph companies respecting the quotations which had been attacked as an illegal restraint upon trade.

This litigation comprised thirteen suits by bucketshops against our Board or the telegraph companies distributing our quotations, and twenty-six suits brought by our Board against purloiners of our quotations. This litigation has been in twentyfive different courts and in thirteen cities in ten different states.

All of these cases have been finally disposed of, except seven, which are still pending. In none of these cases has the Board The cases still pending will ultimately, without much further expense, be decided in favor of the Board.

In these cases permanent injunctions have already been issued in favor of the Board against 179 persons, and temporary injunctions, in cases still pending, against 18 persons, restraining them, either as principal or agent, or as an officer of any corporation, from obtaining or using our quotations or any of them, or having a telegraph or other wire running into his or its office over which our quotations are passing, and from aiding or abetting, directly or indirectly, any other person in so doing, unless the persons thus enjoined, or their principal or corporation, shall have first lawfully acquired the quotations in the manner provided by our contract with the telegraph companies distributing them. Our legal expenses in this litigation, including court costs, stenographers, printing, etc., fees of our regular attorney, and of sundry lawyers necessarily employed as local counsel in other cities, for these six years have aggregated \$87,354.00, or an average of \$14,559.00 per year.

The total revenue of the Board of Trade from its quotations since April 15, 1901 (including \$16,000.00 still in the hands of the telegraph companies), aggregates \$191,519.54. Our revenue from the quotations at the present time is about \$40,000.00 per year.

As a result of this litigation, we are now in a position to obtain, at comparatively small expense, injunctions against any one found to be using our quotations without our approval. In other words, the plan inaugurated by the Board nearly six years ago has received the judicial sanction of the highest court in the land, and has been demonstrated to be a practical one to control our quotations, as well as to derive a large revenue therefrom.

During these six years we have also emerged successfully from other very important litigation, involving the charter powers of our Board.

During that period a rule has been adopted (and enforced) providing minimum rates of commissions, and for the expulsion of any member violating it. A member was expelled under it and appealed to the court to reinstate him upon the ground that this rule was illegal because a restraint upon trade. The Circuit Court (Judge Baker) upheld the validity of this rule, and our charter power to pass it, and this was affirmed in the Appellate Court in a decision, which, we believe, places our commission rule beyond danger of further attack.

In 1902 a large number of injunction suits were brought

against the President of the Board and others to enjoin the signing down of margins upon the ground that the part of the margin rule which compels parties, in case of dispute, to accept the decision of the margin committee, was illegal and beyond the charter power of the Board to enact. The Superior Court (Judge Chytraus) so decided, as did the Appellate Court (Judges Ball, Adams and Windes). But upon appeal, the Supreme Court of Illinois last October upheld in the broadest terms the validity of this rule and this charter power of the Board.

During these years the following members, Frank D. Riordan, Arthur R. Jones, Michael J. Ryan, Portus B. Weare, Charles A. Weare, William E. Dodson, William E. McHenry, and Louis G. Bostedo, have applied to the courts to prevent being disciplined, or seeking reinstatement, but in all these cases the right of this Board to discipline its members for violation of its rules has been upheld. Appeals have been taken by McHenry, Dodson and Bostedo, and are now pending in the Appellate Court.

Sundry other suits of lesser importance, such as actions for damages brought by expelled members against directors, creditors' bills to reach memberships, etc., have been disposed of favorably to the Board.

Our only reverse during these years was in the appeal of the Weare Commission Company case to the Supreme Court, in which we sought to have that court recall its early decision in the Soby case in 1890, to the effect that the Illinois bucketshop statute was intended to include offices of our members, or of correspondents of our members. In this we were unsuccessful, and we should continue our efforts to correct this injustice by legislation.

The litigation now pending consists of the three appeals by Bostedo, Dodson and McHenry, above referred to, and six suits brought by the Board (at Cincinnati, Detroit, Chicago, St. Louis and Minneapolis) against purloiners of its quotations.

There are also pending five bills, in the nature of creditors' suits, against members of, and, this Board, with a view to reaching their memberships.

There are also two actions brought by Charles Waite and Robert H. Thorburn, respectively, against the former directors of this Board, for damages claimed by reason of the action of our directors.

Also a suit brought by Emma Taylor against the Board of Trade and others for damages for alleged malicious prosecution in a criminal suit.

The Quotation Department of the Board evolved by the plan instituted for the purpose of controlling our quotations is a source of substantial profit to the Board and will undoubtedly continue so to be.

The report of the Legal Department sets forth in detail the history of the Board's litigation for about six years and presents an exceptional and a gratifying showing. The charter of the Board and its rules and regulations have received the sanction of the highest courts of the land,

The financial condition of the Board, as shown by its detailed financial statement, is exceedingly satisfactory.

The Board of Directors recommends that it be authorized to cancel the bonds now in its possession and also to purchase at its discretion, during the coming year, further bonds of the Board, and to cancel the same, thus reducing our bonded indebtedness and the annual amount paid for interest. We believe that such a course is founded upon sound business principles; and that every year an appropriation out of the revenues of the Board should be made for the reduction of its bonded indebtedness.

It is the pleasure of the directory to announce the successful culmination of its vital legal questions that were pending, as shown in the decision of the Supreme Court of the United States establishing the Board's right to its quotations and in denying them to objectionable parties; and also its right to maintain injunctions against those persons or concerns using such quotations for illegitimate purposes, such concerns being known as bucketshops. This important decision maintains the legality of our system of trading for future delivery, mode of settlement by offset as provided under our rules and of the Clearing House of the Board.

The recent decision of the Supreme Court of the State of Illinois upholds the margin rule of the Board and the procedure for the endorsement of margins in case of dispute as set forth in said rule. The Board of Trade occupies a standing in the courts which renders it unnecessary to expend large sums of money for legal expenses in the future.

Among those who have passed away during the year was Charles D. Hamill, President of the Board during the eventful years in the history of the Association of 1892 and 1893. It was during those years that the persistent attempt was made to pass the Hatch and Washburn bills that sought to overthrow the system of buying and selling for future delivery, which has since been upheld by the Supreme Court of the United States. Largely by Mr. Hamill's tact and influence the disaster which those measures threatened was averted.

Mr. Hamill was a prominent merchant, Director of the Art Institute, a Trustee of the Chicago Orchestra, and served this Board as its accomplished President, endearing himself in a special sense to the officers and members of this Association by his unswerving integrity, his unfailing courtesy, his wise counsel—all adorned by a rare and charming personality.

The list also includes the name of Lewis B. Mitchell.

Major Mitchell served with distinction and gallantry in the great war for the preservation of the Union, and he leaves behind him a record both as a soldier and a civilian that reflects honor upon his country. He was richly endowed with a native refinement of manner and of speech; cordial and courteous in his bearing; charitable in his judgment of his fellowmen; modest in his demeanor, and always loyal to justice and uprightness in public and in private life.

The Board mourns his loss and records his name among the names of its heroes who in the dark days bravely fought under the flag of the Republic.

ADMINISTRATION AND WAREHOUSE REGISTRA-TION.

Extracts from the rules adopted by the Railroad and Warehouse Commissioners for the administration of the departments of grain inspection and warehouse registration in the city of Chicago in force from and after December 2, 1887.

"Plugged,"
"Loaded," or
"Scoured"
grain.

"The said Chief Inspector, and all persons inspecting grain under his direction, shall in no case make the grade of the grain above that of the poorest quality found in any lot of grain inspected, when it has evidently been "plugged," or otherwise improperly "loaded," for the purpose of deception. Wheat which has been subjected to "scouring," or to some process equivalent thereto, shall not be graded higher than No. 3."

Attempts at fraud, or interference.

"All persons employed in the inspection of grain shall promptly report to the Chief Inspector, in writing, all attempts to defraud the system of grain inspection established by law, and all instances where warehousemen shall deliver, or attempt to deliver, grain of a lower grade than that called for by the warehouse receipt."

"They shall also, in the same manner, report all attempts of receivers or shippers of grain, or any other person interested therein, to instruct, or in any improper way to influence the action or opinion of any inspector in the discharge of his duty; and the Chief Inspector shall report all such cases to the Commission."

Extracts from the Laws of Illinois, Revised Statutes, Chapter 114, Section 152.

"Any duly authorized Inspector of Grain who shall be guilty of neglect of duty, or who shall knowingly or carelessly inspect or grade any grain improperly, or who shall accept any money or other consideration, directly or indirectly, for any neglect of duty, or the improper performance of any duty, as such Inspector of Grain, and any person who shall improperly influence any Inspector of Grain in the performance of his duties as such Inspector, shall be deemed guilty of a misdemeanor, and, on conviction, shall be fined in a sum of not less than \$100, nor more than \$1,000, in the discretion of the Court, or shall be imprisoned in the county jail not less than three, nor more than twelve months, or both, in the discretion of the Court."

Note.—Prior to the year 1820 no official records of the arrival of alien passengers were kept. It is estimated, however, that the total number arriving in the United States from the foundation of the government to the year 1820 was 250,000.

Up to the year 1856 no record was kept of immigrants in distinction from the arrival of

alien passengers.

from July 1, 1885, to June 30, 1895. a Data not collected.

Note.—Up to 1850 only the aggregate valuations in the several counties were reported to the State officers, and from 1852 to 1857, inclusive, a few counties returned only the aggregates; hence the details of real estate and personal property valuations are not complete for those years. In 1867 and 1868 the details of valuation are not entirely correct, owing to changes by the operation of the equalization law. Since 1868 the valuations are as equalized. The total valuations in each of the several years are correct and official.

The valuations for 1873 as equalized are largely in excess of any previous year. In 1974 some changes were made in the manner of equalizing the assessments, resulting in reducing all the valuations, especially those of railroad property.

The valuations for 1899 and subsequent years are the one-fifth of the full fair cash valuations of property as determined by the Assessing officers, under the requirements of the Assessment Act of 1898.

The State debt, as noted, represents it as it stood on the 1st of January in each of the several years to 1869; in 1869 and 1870, as it stood December 1; in 1871, as it stood December 31; from 1872 to 1879, as it stood December 1.

Norm—The city debt as noted represents it as it stood on December 31 of each year. The city tax on railroad property for 1882 and 1883, something over \$100,000 for each year, is not included in the above total tax. The above figures for 1889 include the districts annexed to the city of Chicago July 15 of that year.

*This amount does not include World's Fair Bonds amounting to \$4,293,000.

Norr-The area details are those of the British Board of Agriculture, the acreage yield since 1884 also being official; prior to 1884 the yields were estimated by the "Times" Commissioner and other authorities. The imports and exports are the official returns issued by the "Customs," The population estimates are from the statistical abstract of the United Kingdom. Flour is converted at the rate of 70 per cent. The rate of consumption for human food is reckoned at 5% bu. per capita until 1880-81; since that date at 5% bushels. The bushel is the Imperia measure.

ANNUAL IMPORTS INTO THE UNITED KINGDOM.

An official return of the direct imports from foreign countries of Wheat, Maize, Barley,
Oats and Wheaten Flour into each port of the United Kingdom during
the calendar year 1905 and preceding four years.

(Furnished by the Board's special foreign correspondent, Mr. George J. S. Broomhall, Fellow of the Royal Statistical Society.)

SECTION 7. A. In addition to all the rates of commission prescribed by this rule, there shall be charged all legitimate expenses incurred in handling and caring for the property involved, including storage, insurance, inspection, weighing. Cost of sampling shall not be considered a charge against the property.

CORPORATIONS.

SECTION 8. A. Any corporation having for one of its executive officers and stockholders a member of this Board, may submit to the Board of Directors, or a committee appointed for such purpose, a full disclosure of the relations of such member to such corporation, and if such member shall, upon investigation, be found to be a real bona fide and substantial executive officer and stockholder of such corporation, and that such relation is not created for the sole purpose of obtaining members' rates, such corporation shall be thereafter, and so long as such member shall remain such officer and stockholder, entitled to members' rates provided in this rule; provided, that for the purpose of this rule, not more than one corporation can be represented by the same member of this Association as its executive officer.

Whenever any such corporation shall be so found entitled to members' rates, it shall, whenever requested by the Board of Directors, or such committee, make a full disclosure of the then existing relations of such member to such corporation. If it shall refuse so to do, its right to members' rates shall thereupon cease.

- B. On all transactions for the account of any officer, agent, employe, or stockholder of any such corporation, not a member of this Association, such corporation must exact non-members' rates of commissions.
- C. No member can be deemed the representative of two corporations, or two firms, or a firm and a corporation, for the purpose of giving either firm or corporation members' rates under this rule.

CONSTRUCTIONS.

SECTION 9. A. On all transactions where the purchase or sale of cash grain is made contingent on the price ruling for future delivery, and where the purchase or sale of the future delivery is at once accomplished, fixing by such transaction the value of the cash

grain so bought or sold, it shall be construed that the purchase or sale of the future delivery shall be a part of the cash transaction. Should the purchase or sale of grain for future delivery upon which the cash transaction is based be held subject to the convenience or subject to the orders of the parties with whom such transaction is made, then all such business for future delivery shall be subject to the regular rates of commission as prescribed in this rule.

Members cannot clear through other members as contemplated in Paragraph G, Section 4 of this rule, any trade which is not for their own account, but members receiving orders may execute them and turn over such trades, with the name of the customer, to other members, in which case the latter shall pay the former the minimum brokerage rates as compensation for executing the order.

In no case shall the aggregate amount of brokerage allowed on any transaction be such that the net commission to members on such transaction shall be less than the minimum rates prescribed in Paragraph G, Section 4 of this rule, for clearing trades for members.

Members cannot abate or divide with other members the rates prescribed in Paragraph G, Section 4 of this rule, for clearing.

E. A firm whose only member of the Association is a special partner in such firm is not entitled to members' rates.

F. A firm or a corporation shall charge regular rates of commission on all transactions in which only a part of such firm or corpo-

ration appears as a principal.

G. Any member who, or whose firm or corporation, shall be convicted by the Board of Directors of a violation of the provisions of this rule, or of any evasion thereof by making rebates in prices, by making any contract or observing any contract already made, by furnishing a membership in this Exchange, by giving any bonus, gift, donation or otherwise, or shall purchase or offer to purchase any grain, seeds, provisions or other commodities consigned to him, them or it for sale, or by rendering any other service or concession whatsoever, with the intent to evade in any way directly or indirectly the regular rates of commission or brokerage established by this rule, shall be expelled from this Association. Free telegraphic communication, however, shall not be construed as a violation of this rule.

The Board of Directors is authorized to offer a reward of not more than twenty-five hundred dollars to any person who shall furnish evidence that does convict any member, firm or corporation

of a violation of this rule.

RULE XV.

APPROPRIATIONS.

Section 1. No appropriation of money or other property of the Association shall be made except to defray its legitimate business expenditures or to promote the purposes of its organization.

RULE XVI.

RECOMMENDATIONS.

T.

The Committee on Flour Inspection recommend to millers and Flour in shippers of flour the following requirements of standard sacks:

requirements.

NO. 140-JUTE EXPORT SACKS

Shall be from the best material, double stitched, not using less than an equivalent to 40x49 inch mangled or craped finished material, weighing not less than 12 ounces per yard of 40 inches in width, or 15 ounces for the complete bag. If from starched or sized material, the complete bag should not weigh less than 16 ounces.

NO. 280-JUTE EXPORT SACKS

Shall be from the best material, double stitched, not using less than an equivalent to 50x63 inch mangled or craped finished material, weighing not less than 15 ounces per yard of 50 inches in width, or 25 ounces for the complete bag. If from starched or sized material, the complete bag should not weigh less than 26½ ounces.

Seamless jute sacks must be from same weight and quality of material, etc., but require 4 per cent. less material, and may weigh 4 per cent. less.

140 POUND COTTON EXPORT SACKS

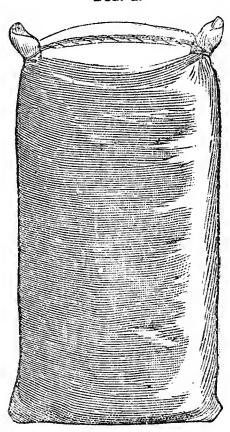

Shall be double stitched, best Twill Drill, Osnaburg or Duck, free from starch or sizing, using of Twill or Drill not less than an equivalent to 40x47 inches, or, if Osnaburg or Duck, not less than 37\frac{1}{x}51\frac{1}{z}\frac{1

П.

How to close sacks.

The Committee on Flour Inspection also recommend to millers and shippers of flour in sacks to be inspected in this market, that in closing the sack the mouth edge of the sack be turned in without rolling, and sewed with a single seam, the stitches to be at least 1½ inches apart. (See Fig. 1.) This will allow the Inspector to insert the trier between the stitches without making holes in the cloth.

Fig. 1.

III.

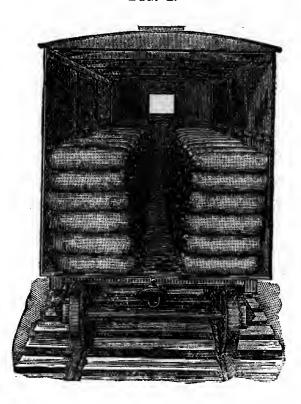

How to load

The Committee on Flour Inspection further recommend to millers, shippers of flour, and railway agents, that in loading cars the following instructions be observed:

One hundred and forty pound sacks should be piled in two tiers lengthwise of the car, the mouths of sacks placed toward center of car (see Fig. 2), leaving the space between the tiers of sacks in the center of the car free and clear for the convenience of the Inspector.

The sacks of flour should be piled as follows: The sacks on the floor to be placed four inches from the side walls of car, and sacks so piled as to gradually incline to the walls of the car until the top rows press strongly against the said walls, as shown in Fig. 2.

Fig. 2.

Unless these recommendations be complied with the Inspector will charge for the labor necessary to put the flour in proper position for inspection.

This change shall be construed as establishing new grades for the times specified, to conform to the existing grades of grain in all particulars, except the distinctions hereby established between the new and old crop, and shall apply to grain inspected from store for two months after the times respectively above specified.

RULE XII.-HEATING.

All grain that is wet, or in a heating condition, or grain containing weevil or wild onions, or grain that is burnt and smoky or otherwise unfit for warehouses, shall not be graded.

RULE XIII.—REASONS.

All inspectors shall make their reasons for grading grain, when necessary, fully known by notations on their books. The weight alone shall not determine the grade.

RULE XIV.—TEST WEIGHT.

All inspectors must ascertain the weight per measured bushel of each lot of wheat inspected by them and report the same in their books.

EXTRACTS FROM THE RULES.

PRESCRIBED BY THE BOARD OF RAILROAD AND WAREHOUSE COMMISSIONERS FOR THE ADMINISTRATION OF THE DEPARTMENTS OF GRAIN INSPECTION AND WAREHOUSE REGISTRATION IN THE CITY OF CHICAGO, AND IN FORCE FROM AND AFTER DECEMBER 3, 1887.

"PLUGGED," "LOADED" OR "SCOURED" GRAIN.

The said Chief Inspector, and all persons inspecting grain under his direction, shall in no case make the grade of the grain above that of the poorest quality found in any lot of grain inspected, when it has evidently been "plugged" or otherwise "improperly loaded" for the purpose of deception. Wheat which has been subjected to "scouring," or to some process equivalent thereto, shall not be graded higher than No. 3.

ATTEMPTS AT FRAUD OR INTERFERENCE.

All persons employed in the inspection of grain shall promptly report to the Chief Inspector in writing all attempts to defraud the system of grain inspection established by law, and all instances where warehousemen shall deliver or attempt to deliver grain of a lower grade than that called for by the warehouse receipt.

They shall also, in the same manner, report all attempts of receivers or shippers of grain, or any other person interested therein, to instruct or in any improper way to influence the action or opinion of any Inspector in the discharge of his duty; and the Chief Inspector shall report all such cases to the Commission.

RULES.

All grain in store in any warehouse of Class "A" at the time any amendment to the established rules of inspection (affecting such grain) may hereafter go into effect shall be inspected out (in satisfaction of warehouse receipts dated prior to that time only) in accordance with the rules as they stood prior to such amendment.

CLAIMS FOR DAMAGES.

No claim for damages on account of error in the inspection of any lot of grain (except grain inspected from public warehouses in accordance with law) will be entertained or allowed by the Board of Railroad and Warehouse Commissioners, unless complaint of such inspection shall be made to the Chief Inspector before the grain in question shall be removed from the car in which it is inspected, or before it shall leave the jurisdiction of the department.

Grain transferred from the car in which it was inspected to another must be inspected after transfer to entitle the owner to have any claim arising thereunder considered by the Board of Railroad and Warehouse Commissioners.

THE CHIEF INSPECTOR OF GRAIN

is hereby authorized to collect on all grain inspected under his direction as follows:

FOR IN-INSPECTION: 35 cents per car load; 10 cents per wagon or cart load; 40 cents per 1,000 bushels from canal boats; $\frac{1}{4}$ of a cent per bushel from bags.

FOR OUT-INSPECTION: 50 cents per 1,000 bushels to vessels and cars; 50 cents per car load to cars for all special inspection; 50 cents per car load to teams or 10 cents per wagon load to teams.

RULE I.

HOURS OF SERVICE.

Assistant Inspectors and Helpers will be at their posts and ready for business on the railroad tracks of at the elevators to which they may be assigned at 7 o'clock a.m. They will remain at their posts until 6 o'clock p. m. during the entire year, unless otherwise excused. Failure to report for duty unless properly excused will be deemed a surrender of the position held by the absentee and no compensation will be allowed for days so absent.

RULE II.

Assistant Inspectors and Helpers are especially instructed to use all due care in cases where it becomes necessary to remove boards to obtain ingress into cars in order to properly inspect the grain in such cars, to replace all such boards removed in such a manner as to prevent leakage or waste of grain from cars. It will be the duty of all Inspectors to make a record of defective and leaky condition of cars and grain doors and to report the same to the Chief Grain Inspector on blanks especially prepared, showing the location of leakage and such other information as would be of service to the receiver and the shipper of grain.

RULE III.

EARLIER HOURS.

When the receipts are large, and the interest of the trade require an earlier inspection, all Assistant Inspectors and Helpers assigned to duty on the track will begin work at as early an hour as practicable.

RULE IV.

EVENING WORK.

Inspectors stationed at elevators will, when necessary to complete the cargo or shipment upon which they may be engaged, remain on duty after regular hours and as late in the evening as they can see to inspect grain safely. Compensation for such services is provided in Rules 13 and 14 of the Railroad and Warehouse Commission.

RULE V.

WET WEATHER AND DARKNESS.

No Inspector stationed at an elevator is authorized to inspect out of store after dark or in wet weather, except on receipt, personally or through the office of the Chief Inspector, of an order written upon the printed blanks furnished by the department, filled and signed by the owner of the grain or his authorized agent, relieving such Inspector of all responsibility for damage which may be caused by such wet weather, or loss by such errors as are liable to occur by reason of darkness; but in every case the Inspector must be personally present when the grain is actually delivered on board, making his report of the inspection after such actual delivery.

NOTICE.

All matters pertaining to the inspection of grain should be taken up with the Chief Grain Inspector.

In case of unsatisfactory inspection, write or wire immediately. Grain cannot be re-inspected after it has been unloaded and the identity of it lost.

W. SCOTT COWEN, Chief Grain Inspector.

REGULATIONS

-FOR THE-

INSPECTION OF PROVISIONS.

Duty of inspectors.

REGULATION 1. For the examination of provisions sold as Standard, it shall be the duty of any Inspector properly appointed by the Association, on receiving notice, to go to any packing house or warehouse in the city, to examine provisions, in such quantities as may be required, selecting the same in such a manner, from the lots specified, as, in his judgment, will give a fair sample of the whole.

Certificates.

Reg. 2. If, upon examination, the property is found, in all respects, up to the requirements of the classification of the grades adopted by the Association, he shall issue a certificate to that effect, which certificate shall state the number of packages, pieces, or pounds examined, and also the number of packages, pieces, or pounds in the lot to which the examination is intended to apply, and that the packages (if any) are in good merchantable order and condition. In the case of lard, no certificate for inspection shall be issued unless every package is examined; but on request of the owner or person ordering the inspection, the Inspector may examine a part of a lot, and issue a certificate of such examination, stating the number of packages examined, and also the whole number of packages in the lot.

This regulation to take effect on the first day of March, A. D., 1902.

REGULATIONS

GOVERNING THE

"Department of Grain Sampling and Seed Inspection."

ADOPTED BY THE BOARD OF DIRECTORS OF THE BOARD OF TRADE

OF THE CITY OF CHICAGO.

First—The Board of Directors shall appoint a Committee of Five, members of the Board of Trade, who shall have and exercise general control over the Department under the conditions and provisions contained in Sections 1, 2 and 3 of Rule IV of the Rules of the Board of Trade of the City of Chicago.

Second—This Committee shall appoint and fix the compensation of a Chief Grain Sampler, subject to the approval of the Board of Directors.

Third—The Chief Grain Sampler shall furnish a bond for the faithful performance of all and singular the duties of his office, said bond to be satisfactory in all respects to the Board of Directors.

Fourth—The Chief Sampler may employ such assistance as needed, when approved by the "Department of Grain Sampling and Seed Inspection," and the Department will fix the compensation for such assistance.

Fifth—The Department shall make monthly reports of all receipts and expenditures. All expenses must be approved by the Board of Directors.

94

Sixth—The charge for services rendered by this Department shall be uniform to all persons, firms and corporations, and shall not be changed without proper notice being given of the proposed change, such notice to be posted in a conspicuous place in the Exchange Room of the Board. This Department may charge a higher rate in special cases outside of the Chicago district, but in no case can it make any reduction from the established rates.

Seventh—Nothing in the foregoing regulations shall prevent the buyer or seller, or his representative, from personally examining any car or cargo of grain bought or sold under the Rules of the Board of Trade of the City of Chicago, but under no circumstances can a Board of Trade official certificate be given by the party thus examining; any unofficial party, or his employer, inspecting any car or cargo of grain shall not have the right of appeal to the Grain Committee, unless the grain has been loaded under the supervision of the Official Sampler of this Department.

Eighth—The fees authorized to be collected by this Department for sampling grain shall be as follows:

Thirty (30) cents per carload for sampling grain.

Twenty-five (25) cents per 1000 bushels for sampling grain loaded into or unloaded from vessels.

Ninth—The Grain Committee shall arrange with the State Grain Inspection Department for the appointment of helpers whose duty it shall be to secure samples of every lot of grain graded by the Department in Chicago, as far as practicable, whether such grading be in or out of elevators or track arrivals. The same facility shall be accorded to such helpers for the purpose of examining and sampling grain loaded into vessels or cars at any private elevator or cleaning house by the proprietors of such houses and their employes, as is now accorded to regular State Inspectors.

Tenth—Such helpers shall be required to give bonds. They shall be subject to control and discharge by the State Grain Department, exactly as are the Deputy Inspectors. They shall be appointed on recommendation of the Grain Committee. Their salaries shall be paid by the State Grain Department with money furnished if necessary by the Board of Trade. When not actively engaged in duties described by the State Grain Department they shall be subject to control and direction of the Chief Sampler in such work as he may require.

Eleventh—It shall be the duty of such helper to bring the samples of graded grain, secured as above, to the Chief Sampler's office daily, for use in examinations by Supervising Inspectors, the Appeal Committee and the Official Sampler. The identity of such samples shall be known, however, only to the State Department and to the Official Sampler.

Twelfth—Such samples shall be kept on file in the Chief Sampler's office a reasonable time, labeled, however, by grades and numbers which shall indicate their identity only to the State Department and the Official Sampler, and thus unidentified they shall be accessible to the public.

Thirteenth—It shall be one of the duties of the Official Sampler to thoroughly examine these samples daily, and in case any of them indicate improper grading, he shall, in case the Chief Inspector, the Supervising Inspectors or the Appeal Committee have not already taken up such improper grading for correction, call their attention to same, explaining in what way the inspection has been too lenient or too rigid.

Fourteenth—In case the Official Sampler or any other party at interest, i. e., the buyer or the seller, should thus complain to the State Department and fail to have his complaint properly or favorably considered by the State Department, it shall be the duty of the Sampling or Grain Committee to listen to his complaint, and if it is in their judgment reasonable, the other parties at interest shall be notified, and the matter taken up by the Grain Committee with the State Department—all parties at interest being given an opportunity of being present at such hearing.

Fifteenth—In the examination of samples of grain inspected, a standard sample shall be used as a gauge, and in case of doubtful grain, which is very near the "line," a comparison shall be made with such standard sample, and in case of disputes calling for an appeal, final decision shall be rendered in accordance with such comparison.

Sixteenth—Standard samples above referred to shall be made up as early as possible at the beginning of each crop year, and approved by the State Inspection Department, Appeal and Sampling Committees and the Official Sampler—all working together to make up a fair and equitable standard.

Seventeenth—In cases where it is necessary for the Grain or Sampling Committee to take the question of moisture into account, rendering a chemical analysis necessary, this shall be made promptly.

Eighteenth—Nothing in the above shall be understood as giving the Grain Committee any privileges relative to the examination of samples or the knowledge of their identity other than those enjoyed by the public, excepting when complaint is made to them under the provisions of the above regulations, or when an appeal is taken as is provided in Section 17 of Rule 22, 2nd paragraph, in which case the examination shall be made at such time and place and after such notification as will give all parties at interest an opportunity of being present.

Nineteenth—In case it should not be feasible to obtain samples of track arrivals in the manner above outlined, owing to the volume of grain coming in, an arrangement may be made with Receivers' agents to work in conjunction with Inspectors to take an extra sample for file in the Chief Inspector's office as above outlined.

Time of application.

Application may be made after the first day of June in any year to have a warehouse declared regular, and the Board of Directors may declare such warehouse regular in accordance with and subject to the provisions of said rules and requirements.

Warehouses may be declared no longer "regular." Proviso.

Seventh. Any regular warehouse may, for good and sufficient reasons, satisfactory to the Board of Directors of the Board of Trade, be declared no longer a regular warehouse for the storage of provisions under the Rules of the Board of Trade, provided, property already in store in such warehouse shall continue to be regular or delivery so long as it remains intact in such warehouse.

Protection of holders of switching charges.

Eighth. The proprietors or managers of a regular warehouse receipts against shall pay any and all charges for switching cars to and from any warehouse for the purpose of loading property for delivery from such warehouse, and shall keep the holders of the receipts for such property free from all liability for such charges.

Restrictionson Registrar in insurance.

The proprietors, or managers, of a regular provision regard to proper warehouse shall not issue for regular delivery, nor shall the Registrar of Provisions register for regular delivery, any warehouse receipts for which it is not possible to obtain proper insurance on the property by the party, or parties, receiving the said warehouse receipts on a regular delivery.

REGULATIONS GOVERNING THE TRADE IN HOPS.

First. It shall be the rule that a bale of hops shall weigh not less than one hundred and seventy-five (175) nor more than two hundred (200) pounds; but the tender or delivery of any lot of hops on a sale or a contract, averaging one hundred and eighty-five (185) pounds to one hundred and ninety-five (195) pounds shall be deemed a compliance with this rule.

Weight of a

Second. The sacking of hops shall not weigh more than twenty-four (24) ounces per yard, and seven (7) pounds shall be deducted from the weight of each bale as tare; and any additional weight of sacking, or any extraneous matter, shall be considered as irregular, and the seller be liable to the purchaser for such excess.

Sacking.

Third. Each and every bale of hops sold must be marked with the growers' name or initials, and the name of the State where the hops have been raised, and the year produced.

Marks on bales.

REGULATIONS

-OF THE-

Clearing House of the Board of Trade of the City of Chicago.

Τ.

The style and address of each member of the Clearing House of the Board of Trade of the City of Chicago—in the case of a corporation, the names of its officers and directors and its corporate name, in the case of a firm, the names of its members and its firm name—must be immediately registered at said Clearing House; also, must be immediately registered any change in the style or address of any member of the Clearing House—in the case of a corporation, any change in its corporate name or in its officers or directors, and in the case of a firm, any change in the firm name or in the membership thereof.

A fine of five dollars (\$5.00) shall be imposed in case of violation of any of the above requirements.

Suitable blanks shall be provided by the Clearing House for furnishing the information as hereinbefore set forth and required.

A copy of all registrations, as above set forth, shall be sent by the manager of the Clearing House to each and every member thereof; also, a copy shall be filed by the Clearing House with the Secretary of the Board.

II.

Printed reports to show the net balances, as provided in General Rule No. XXII, Section 6, Paragraph 2, must be obtained at the Clearing House.

III.

Any person, firm or corporation, member of the Clearing House of the Board of Trade of the City of Chicago, whose report shows a balance against such person, firm or corporation, shall accompany his or its report with a check payable to the order of the Clearing House of the Board of Trade of the City of Chicago for such balance; such check, if not issued by the said Clearing House of the Board of Trade of the City of Chicago must be duly certified, under penalty of a fine of five dollars (5.00). Should payment on a certified check be stopped, the maker must immediately upon receiving official notice thereof, deposit with the said Clearing House of the Board of Trade of the City of Chicago another and acceptable check.

IV

All reports must be in the Clearing House by 11 A. M., of each business day, under penalty of a fine of five dollars if tardy, and the posting of the delinquent party on 'Change at 12 M., except on days when the exchange room is closed at 12 o'clock M., when the names of delinquents shall be posted at 11:30 A. M.

V.

Parties having no items to clear must so report in writing, under penalty of a fine of one dollar for neglect of such report; and parties whose reports may be equal on both sides, and those whose reports show a credit balance, must put them in the Clearing House, under penalty, as provided in Art. IV above.

N. B.—To insure accuracy and expedite the clearings, parties must be sure

the amounts claimed are mutually agreed upon and correct. A penalty of one dollar will be collected of any party claiming from or allowing to another party a wrong amount, and also for each error in footing or subtraction. All doubtful items must be excluded from the report.

VI.

If a claim is not allowed by the debtor, the claimant must on notice thereof, pay to the Clearing House by certified check the amount claimed; such payment to be made before 1:00 o'clock P. M. of the day on which notice is served, under penalty of a fine of five dollars (\$5.00). If such claim is not paid prior to 2:30 o'clock P. M. of the same day, the Clearing House will hold whatever funds it may have belonging to the claimant or his creditors, until such claim is satisfied.

VII.

In case a party, in his report, allows another party an amount in excess of that claimed by the second party, the excess will be refunded to the first party.

VIII.

The charge for clearing, as provided by the Rules, has been fixed at one cent for each item in each report, the same to be paid monthly on presentation of the bill by the Clearing House. Fines to be paid at time of notification that the same have been incurred, under penalty of the withholding of the next amount due such debtor or reporting the delinquency to the Board of Directors.

IX.

Parties whose reports show a net balance in their favor may call for check after 2:30 P. M.

X.

No reports shall be amended after 11 A. M.

XI.

Office hours shall be from 9 A. M. to 3:30 P. M.

XII.

No firm shall be allowed the privileges of the Clearing House while any member of said firm is under sentence of suspension by the Board of Directors.

XIII.

No corporation shall be allowed the privileges of the Clearing House while any officer of said corporation is under sentence of suspension by the Board of Directors. And whenever the President or Secretary of any corporation enjoying the privileges of the Clearing House shall have been expelled or suspended for misconduct in connection with the business of said corporation, such corporation shall thereafter and during the period of such suspension be entitled to the privileges of the Clearing House only after favorable action of the Board of Directors upon its written application for such privileges.

XIV.

Any corporation applying for membership in the Clearing House of the Board of Trade of the City of Chicago, may be admitted to such membership only upon recommendation of the Clearing House Committee, in the exercise of its discretion, and upon approval by at least ten affirmative ballot votes of the Board of Directors; provided, that three negative ballot votes are not cast against any such corporation.

XV.

When any member of the Clearing House, whether person, firm or corporation, is, in the opinion of the Clearing House Committee, using such Clearing House for the purpose of clearing the business of a member suspended from the privileges of the Board or one expelled therefrom, or of a corporation a stockholder of which is suspended from the privileges of the Board or expelled therefrom, the Clearing House Committee shall report such fact to the Board of Directors, who, in the exercise of its discretion, may deprive such a person, firm, or corporation of the privileges of the Clearing House for such period as they may see fit; the intent hereof being to prevent any membership in the Clearing House being used as a subterfuge to enable one suspended or expelled from the Board to still enjoy the advantages of the Clearing House, but not to prevent a member from clearing the individual trades made for the account and personal benefit of one suspended or expelled from the Board.

XVI.

Applications by persons or firms for membership in the Clearing House of the Board of Trade of the City of Chicago must be submitted to the Clearing House Committee and passed upon favorably by them before applicants will be entitled to the privileges of the said Clearing House of the Board of Trade of the City of Chicago.
